• Contemporary classic style • Matte mouth blown opal glass that emits a soft light

Verona is a traditional series in a classic Scandinavian design. Verona is constructed of two beautiful opal white glass shades that ensure a nice even distribution of light into the room. Simultaneously, the contrast between the white opal glass and the matte black metal contributes to a modern look.

Verona pendant emits a soft glare free light without compromising on the light output. Therefore, the timeless pendant has many applications and can be used for example above the dining or coffee table.
