- Lights both up and down • Turnable shade (360°)
- Create interest by using more lamps that all point in different directions

Belir has a small, round design that is perfect above your kitchen counter or next to your sofa or bed. It casts a pleasant light both upwards and downwards, creating an elegant lighting effect on the wall.

Its moveable shade allows you to adjust the direction of the light, making it easy for you to create the perfect atmosphere for any occasion. You can also create a fun lighting effect by placing multiple lamps next to each other and pointing the light in different directions.
