Canis is a classic round downlight for indoor use with a metal frame that fits beautifully into any home. Furthermore, Canis comes with a GU1 bulb.

The downlight emits a warm light of 2700 K, which is particularly suitable for, for example, the living room, dining room or bedroom. The dimmable function allows you to adjust the light to different situations and needs. This way, you can quickly and easily change the light from a practical work light to a more relaxing and atmospheric light. The downlight is adjustable, making it highly functional as the light can be directed to where you need.
