

ENDON®

Otto Floor Light

INSTRUCTION MANUAL

Safety Warnings

- This product is only suitable for connection to a 240V~50Hz supply in accordance with current IEE wiring regulations. It is for indoor use only, and not suitable for a bathroom location.
- If the Class II, double insulated symbol  is on the lamp, it does not require an Earth, and Live or Neutral **must not** be connected to Earth. If there is no such symbol, then the lamp must be Earthed. See wiring diagrams below.
- Do not plug into the mains until your lamp is fully assembled.
- Under no circumstances must this lamp be covered with any material as this could pose a safety hazard. It must be used on a stable, flat surface.
- Never fit bulbs of a higher wattage than those specified on the label (as these may cause overheating and damage the fitting).
- The lamp must be protected by a 3 amp fuse in the mains plug.
- If the mains cable becomes damaged it must only be replaced by a technically competent, qualified person.
- If you are in any doubt about your competence please consult a qualified electrician.
- This product contains delicate parts – be careful during handling and maintenance to avoid breakage.
- If any modification is made it will invalidate the warranty and may render the product unsafe.

Care Information

Allow 10 minutes to cool before replacing, adjusting or cleaning.

Clean with a dry cloth only. Do not use liquid or abrasive cleaners on this product.

Assembly/ User Instructions

Before you start

Please read these instructions carefully before fitting and retain for reference. Check the packaging and make sure that you have all the required parts. Follow each assembly step in order to prevent incorrect assembly. Ensure that the product is fully assembled as illustrated before use.

These assembly diagrams are intended as a guide – if in doubt consult a qualified electrician.

1. Carefully unpack your lamp, and place on a stable, flat surface.
2. Gently pull any excess cable through from through from the cable exit (1) of Tube A.
3. Fit the upper section onto Tube A and secure in place with the grub screws using the supplied allen key. Take care not cross the threads or overtighten the screws.
4. Fit the assembled tubes onto the base and secure in place with the grub screws and allen key. Take care not cross the threads or overtighten the screws.
5. Attach the shade to the lamp by removing the lampholder cover and shade ring from the lampholder. Place the shade over the lampholder and refit the lampholder cover and shade ring. Tighten to secure the shade in place.
6. Install the bulb. **Do not install a bulb with a greater wattage or different shape than specified on the label.**
7. Plug in, and operate the push switch to turn your lamp on.
